We will pay interest semi-annually on the notes on June 14 and December 14 of each year, beginning on June 14, 2016. The notes will mature on December 14, 2045 unless earlier redeemed.

We may redeem notes in whole, but not in part, on each December 14 on or after December 14, 2018 at a redemption price equal to 100% of the principal amount of the notes being redeemed plus accrued and unpaid interest to, but not including, the redemption date. **Investing in these securities involves certain risks. See “Risk Factors” beginning on page S-7 of this prospectus supplement.**

Application will be made to the Taipei Exchange (the “TPEX”) for the listing of, and permission to deal in, the notes by way of debt issues only to professional institutional investors as defined under Paragraph 2 of Article 4 of the Financial Consumer Protection Act of the Republic of China (the “ROC”) and such permission is expected to become effective on or about December 14, 2015. The TPEX is not responsible for the content of this prospectus supplement or the accompanying prospectus and no representation is made by the TPEX as to the accuracy or completeness of this prospectus supplement or the accompanying prospectus. The TPEX expressly disclaims any and all liability for any losses arising from, or as a result of the reliance on, all or part of the contents of this prospectus supplement or the accompanying prospectus. Admission to the listing and trading of the notes on the TPEX shall not be taken as an indication of the merits of us or the notes. No assurance can be given that such application will be approved, or that the TPEX listing will be maintained.

The notes have not been, and shall not be, offered, sold or re-sold, directly or indirectly, to investors other than “professional institutional investors” as defined under Paragraph 2 of Article 4 of the Financial Consumer Protection Act of the ROC, which currently include: overseas or domestic (i) banks, securities firms, futures firms and insurance companies (excluding insurance agencies, insurance brokers and insurance notaries), the foregoing as further defined in more details in Paragraph 3 of Article 2 of the Organization Act of the Financial Supervisory Commission, (ii) fund management companies, government investment institutions, government funds, pension funds, mutual funds, unit trusts, and funds managed by financial service enterprises pursuant to the Securities Investment Trust and Consulting Act, the Future Trading Act or the Trust Enterprise Act or investment assets mandated and delivered by or transferred for trust by financial consumers, and (iii) other institutions recognized by the Financial Supervisory Commission of the ROC. Purchasers of the notes are not permitted to sell or otherwise dispose of the notes except by transfer to the aforementioned professional institutional investors.

## FORWARD-LOOKING STATEMENTS

This prospectus supplement and the accompanying prospectus, including the documents incorporated by reference herein or therein, include forward-looking statements within the meaning of Section 27A of the Securities Act, and Section 21E of the Exchange Act. These forward-looking statements include all statements other than statements of historical facts contained in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein or therein. Words such as “expects,” “goals,” “plans,” “believes,” “continues,” “may,” “will” and variations of such words and similar expressions are intended to identify such forward-looking statements. In addition, any statements that refer to projections of our future financial performance, our anticipated growth and trends in our businesses, and other characterizations of future events or circumstances are forward-looking statements.

We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives, and financial needs. These forward-looking statements could be affected by the uncertainties and risk factors described throughout this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein. We claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 for all forward-looking statements. Our actual results may differ materially, and these forward-looking statements do not reflect the potential impact of any divestitures, mergers, acquisitions, or other business combinations that had not been completed as of the date of this prospectus supplement. Any of the following factors may impact our achievement of results.

- Our revenue and gross margin percentage could vary significantly from expectations based on the demand for our products; the timing of our product introductions and related expenses, including manufacturing ramp and marketing expenses; the mix of products sold; and product manufacturing quality/yields.
- Demand for our products is highly variable and could be different from expectations due to factors including the introduction, availability and market acceptance of our products, products used together with our products and competitors’ products; our ability to respond quickly to technological developments and to introduce new products or incorporate new features into existing products; competitive and pricing pressures, including actions taken by competitors; changes in business and economic conditions; consumer confidence or income levels; supply constraints and other disruptions affecting customers; changes in customer order patterns including order cancellations; and changes in the level of inventory at customers.
- We operate in highly competitive industries and our operations have high costs that are either fixed or difficult to reduce in the short term. Our cash flow, cash and liquid investments and related financial metrics including EBITDA can be impacted by numerous factors such as unexpected expenditures (including payments to resolve legal proceedings), research and development and capital expenditure decisions, acquisitions and dividends and stock repurchases.
- Our results could be affected by adverse economic, social, political and physical/infrastructure conditions in countries where we, our customers or our suppliers operate, including military conflict and other security risks, natural disasters, infrastructure disruptions, health concerns and fluctuations in currency exchange rates. Results may also be affected by the formal or informal imposition by countries of new or revised export and/or import and doing-business regulations which could be changed without prior notice.
- Our results may be affected by the timing of closing of acquisitions, divestitures and other significant transactions, including our pending acquisition of Altera.

- Product defects or errata (deviations from published specifications) may adversely impact our expenses, revenues and reputation.
- We may be affected by litigation or regulatory matters involving intellectual property, stockholder, consumer, antitrust, disclosure and other issues. An unfavorable ruling could include monetary damages or an injunction prohibiting us from manufacturing or selling one or more products, precluding particular business practices, impacting our ability to design our products or requiring other remedies such as compulsory licensing of intellectual property.
- Our results may be affected by the other risks, uncertainties and assumptions included in our periodic reports and in other documents that we file with the SEC.

This list of factors is not exhaustive, and new factors may emerge or changes to the foregoing factors may occur that would affect our business. In light of these factors, the forward-looking events and circumstances discussed in this prospectus supplement or the accompanying prospectus may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. These statements are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements.

Although we undertake no obligation to revise or update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law, you are advised to consult any additional disclosures we make in our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K filed with the SEC. See “Where You Can Find More Information” in this prospectus supplement.

## RISK FACTORS

*An investment in the notes involves certain risks. You should carefully consider the risk factors described under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 27, 2014, as supplemented by our Quarterly Reports on Form 10-Q for the fiscal quarter ended March 28, 2015, for the fiscal quarter ended June 27, 2015 and for the fiscal quarter ended September 26, 2015, as well as the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision. Additional risks and uncertainties not now known to us or that we now deem immaterial may also adversely affect our business or financial performance. Our business, financial condition, results of operations or cash flows could be materially adversely affected by any of these risks. The market or trading price of the notes could decline due to any of these risks or other factors, and you may lose all or part of your investment.*

*In addition to the risks relating to us described in our reports described above and any subsequent filings incorporated by reference herein or that otherwise modify or supplement this prospectus supplement, the following are additional risks relating to an investment in the notes.*

***The notes are structurally subordinated to the liabilities of our subsidiaries.***

The notes are our obligations exclusively and not of any of our subsidiaries. A significant portion of our operations is conducted through our subsidiaries. Our subsidiaries are separate legal entities that have no obligation to pay any amounts due under the notes or to make any funds available therefor, whether by dividends, loans or other payments. Except to the extent we are a creditor with recognized claims against our subsidiaries, all claims of creditors (including trade creditors) and holders of preferred stock, if any, of our subsidiaries will have priority with respect to the assets of such subsidiaries over our claims (and therefore the claims of our creditors, including holders of the notes). Consequently, the notes will be effectively subordinated to all liabilities of any of our subsidiaries and any subsidiaries that we may in the future acquire or establish.

***The notes are subject to prior claims of any secured creditors, and if a default occurs, we may not have sufficient funds to fulfill our obligations under the notes.***

The notes are our unsecured general obligations, ranking equally with other senior unsecured indebtedness. The indenture governing the notes permits us and our subsidiaries to incur additional debt, including secured debt. If we incur any secured debt, our assets and the assets of our subsidiaries will be subject to prior claims by our secured creditors. In the event of our bankruptcy, liquidation, reorganization or other winding up, assets that secure debt will be available to pay obligations on the notes only after all debt secured by those assets has been repaid in full. Holders of the notes will participate in our remaining assets ratably with all of our unsecured and unsubordinated creditors, including our trade creditors. If we incur any additional obligations that rank equally with the notes, including trade payables, the holders of those obligations will be entitled to share ratably with the holders of the notes and the previously issued notes in any proceeds distributed upon our insolvency, liquidation, reorganization, dissolution or other winding up. This may have the effect of reducing the amount of proceeds paid to you. If there are not sufficient assets remaining to pay all these creditors, all or a portion of the notes then outstanding would remain unpaid.

***The limited covenants in the indenture for the notes and the terms of the notes do not provide protection against some types of important corporate events and may not protect your investment.***

The indenture for the notes does not:

- require us to maintain any financial ratios or specific levels of net worth, revenues, income, cash flow or liquidity and, accordingly, does not protect holders of the notes in the event that we experience significant adverse changes in our financial condition or results of operations;

- limit our subsidiaries' ability to incur indebtedness, which could structurally rank senior to the notes;
- limit our ability to incur secured indebtedness that would effectively rank senior to the notes to the extent of the value of the assets securing the indebtedness, or to engage in sale/leaseback transactions;
- limit our ability to incur indebtedness that is equal in right of payment to the notes;
- restrict our subsidiaries' ability to issue securities or otherwise incur indebtedness that would be senior to our equity interests in our subsidiaries and therefore would be structurally senior to the notes;
- restrict our ability to repurchase or prepay our securities;
- restrict our ability to make investments or to repurchase or pay dividends or make other payments in respect of our common stock or other securities ranking junior to the notes;
- restrict our ability to enter into highly leveraged transactions; or
- require us to repurchase the notes in the event of a change in control.

As a result of the foregoing, when evaluating the terms of the notes, you should be aware that the terms of the indenture and the notes do not restrict our ability to engage in, or to otherwise be a party to, a variety of corporate transactions, circumstances and events, such as certain acquisitions, refinancings or recapitalizations that could substantially and adversely affect our capital structure and the value of the notes. For these reasons, you should not consider the covenants in the indenture as a significant factor in evaluating whether to invest in the notes.

***Changes in our credit ratings may adversely affect your investment in the notes.***

The major debt rating agencies routinely evaluate our debt. These ratings are not recommendations to purchase, hold or sell the notes, inasmuch as the ratings do not comment as to market price or suitability for a particular investor, are limited in scope, and do not address all material risks relating to an investment in the notes, but rather reflect only the view of each rating agency at the time the rating is issued. The ratings are based on current information furnished to the ratings agencies by us and information obtained by the ratings agencies from other sources. An explanation of the significance of such rating may be obtained from such rating agency. There can be no assurance that such credit ratings will remain in effect for any given period of time or that such ratings will not be lowered, suspended or withdrawn entirely by the rating agencies, if, in each rating agency's judgment, circumstances so warrant. Actual or anticipated changes or downgrades in our credit ratings, including any announcement that our ratings are under further review for a downgrade, could affect the market value and liquidity of the notes and increase our corporate borrowing costs.

***Active trading markets for the notes may not develop.***

No public market exists for the notes. Application will be made for the listing of the notes on the TPEX. No assurances can be given as to whether the notes will be, or will remain listed on the TPEX or whether a trading market for the notes will develop or as to the liquidity of any such trading market. If the notes fail to or cease to be listed on the TPEX, certain investors may not invest in, or continue to hold or invest in, the notes. If any of the notes are traded after their initial issue, they may trade at a discount or premium from their initial offering price, depending on prevailing interest rates, the market for similar securities and the market for the notes and other factors, including general economic conditions and our financial condition, performance and prospects. No assurance can be given as to the future price level of the notes after their initial issue. The notes may be sold to a limited number of

investors and liquidity of the notes may be adversely affected if a significant portion of the notes are bought by a limited number of investors.

***Redemption may adversely affect your return on the notes.***

We have the right to redeem the notes in whole, but not in part, prior to maturity on each December 14 on or after December 14, 2018. We may also redeem the notes in whole, but not in part, prior to maturity if certain events occur involving U.S. taxation. The redemption price in each case will not include a premium. We may redeem the notes at times when prevailing interest rates may be relatively low. Accordingly, you may not be able to reinvest the amount received upon a redemption in a comparable security at an effective interest rate as high as that of the notes.

***Trading in the clearing systems is subject to minimum denomination requirements.***

The terms of the notes provide that notes will be issued with a minimum denomination of \$100,000 and multiples of \$1,000 in excess thereof. It is possible that the clearing systems may process trades which could result in amounts being held in denominations smaller than the minimum denominations. If definitive notes are required to be issued in relation to such notes in accordance with the provisions of the relevant global notes, a holder who does not have the minimum denomination or any integral multiple of \$1,000 in excess thereof in its account with the relevant clearing system at the relevant time may not receive all of its entitlement in the form of definitive notes unless and until such time as its holding satisfies the minimum denomination requirement.

## RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to fixed charges for the periods indicated. This information should be read in conjunction with the consolidated financial statements and the accompanying notes incorporated by reference in this prospectus supplement.

	Nine Months Ended		Years Ended				
	September 26, 2015	September 27, 2014	Dec 27, 2014	Dec 28, 2013	Dec 29, 2012	Dec 31, 2011	Dec 25, 2010
	Ratio of earnings to fixed charges . . . . .	24x	31x	33x	25x	42x	80x

The ratio of earnings to fixed charges is computed by dividing (i) income before income taxes payable plus fixed charges by (ii) fixed charges. Our fixed charges consist of the portion of operating lease rental expense that is representative of the interest factor and interest expense on indebtedness.

## **USE OF PROCEEDS**

We expect to receive net proceeds of \$911,225,625 from the sale of the notes offered hereby, before expenses but after deducting the selling discount and structuring fee. We intend to use the net proceeds from the offering of the notes to fund a portion of the cash consideration for our previously announced acquisition of Altera. This offering is expected to complete our previously announced long-term debt financing for the Altera acquisition. This offering is not conditioned on the closing of our acquisition of Altera. If such acquisition were not to close for any reason, the net proceeds of this offering will be used for general corporate purposes, which may include refinancing of existing indebtedness.

## CAPITALIZATION

The following table sets forth our cash and cash equivalents, short-term investments, trading assets, other long-term investments and total capitalization on a consolidated basis as of September 26, 2015:

  - the issuance of \$915,000,000 of notes offered hereby; and

- (2) The amounts for our convertible debentures exclude the amounts allocated to equity upon issuance, and the notes offered hereby reflect the aggregate public offering price. The total principal amount of our long-term debt, including current maturities, is \$22,782 million as of September 26, 2015 and \$23,697 million on an as adjusted basis.

The excess of the amount of cash payable if converted over the carrying amount of the 2039 debentures has been classified as temporary equity on our consolidated balance sheet as the debentures are convertible at the option of the holders as of September 26, 2015. In future periods, if the closing stock price conversion right condition is no longer met, all outstanding 2039 debentures would be reclassified to long-term debt and the temporary equity would be reclassified to stockholders’ equity. As of September 26, 2015, the aggregate principal amount outstanding of our convertible debentures was \$3.6 billion.
- (5) Excludes (i) 62.8 million shares issuable upon the exercise of options outstanding as of September 26, 2015, having a weighted average exercise price of \$21.42 per share under our 2006 Equity Incentive Plan, our 2004 Equity Incentive Plan, our 1997 Stock Option Plan and our 1984 Stock Option Plan, (ii) 110.6 million shares issuable upon vesting of unvested restricted stock units as of September 26, 2015, (iii) 258 million and 181 million additional shares authorized for issuance as of September 26, 2015 under our 2006 Equity Incentive Plan and 2006 Stock Purchase Plan, respectively, and (iv) shares issuable upon conversion of our 2035 debentures and shares issuable upon conversion of our 2039 debentures.

## DESCRIPTION OF NOTES

The following description of the particular terms of the notes offered by this prospectus supplement should be read in conjunction with the description of the general terms and provisions of the debt securities in the accompanying prospectus.

We will issue the notes as separate series of debt securities as defined in the accompanying prospectus. The following description of the terms of the notes offered hereby supplements, and to the extent inconsistent therewith replaces, the description of the general terms and provisions of the debt securities under the heading “Description of Debt Securities” in the accompanying prospectus. The notes are to be issued under an indenture, dated as of March 29, 2006, between us and Citibank, N.A., as trustee, as supplemented by the first supplemental indenture, dated as of December 3, 2007, between us and Wells Fargo Bank, National Association, as successor trustee (the “base indenture”) and a supplemental indenture to be dated as of the date the notes are issued (together with the base indenture, the “indenture”). The following summary of provisions of the indenture and the notes does not purport to be complete and is subject to, and qualified in its entirety by reference to, all of the provisions of the indenture, including definitions therein of certain terms and provisions made a part of the indenture by reference to the Trust Indenture Act of 1939, as amended (the “Trust Indenture Act”). Wherever particular provisions or defined terms of the indenture or form of note are referred to, these provisions or defined terms are incorporated in this prospectus supplement by reference. You may request a copy of the indenture from us as set forth in “Information Incorporated by Reference” in this prospectus supplement. We urge you to read the indenture (including the form of senior note contained therein) because it, and not this description, defines your rights as a holder of the notes. For purposes of this description, references to the “Company,” “we,” “our” and “us” refer only to Intel Corporation and not to its subsidiaries.

### General

We will initially issue a total of \$915,000,000 aggregate principal amount of 4.70% Senior Notes that will mature on December 14, 2045 (the “notes”). We may issue additional notes as described under “—Further Issuances.”

We may redeem the notes, in whole but not in part, at our option on or after December 14, 2018 as described under “—Optional Redemption” below.

We may also redeem the notes, in whole but not in part, prior to maturity if certain events occur involving U.S. taxation. If any of these special tax events do occur, the notes will be redeemed at a redemption price of 100% of their principal amount plus any accrued interest and additional amounts payable with respect to the notes to, but not including, the redemption date. See “—Redemption for Tax Reasons.”

The notes will be issued in registered form in denominations of \$100,000 and integral multiples of \$1,000 in excess thereof.

The term “business day” when used with respect to any note means any day, other than a Saturday or Sunday, which is not a day on which banking institutions in the City of New York, London or Taipei, Taiwan, are authorized or required by law, regulation or executive order to close.

The notes will not be subject to any sinking fund.

We may, subject to compliance with applicable law, at any time purchase notes in the open market or otherwise.

## **Ranking**

The notes will be our senior unsecured and unsubordinated obligations and will rank equally in right of payment with all of our unsecured and unsubordinated obligations. However, the notes are structurally subordinated to the liabilities of our subsidiaries and will be effectively subordinated to any secured indebtedness to the extent of the value of the assets securing such indebtedness. Claims of the creditors of our subsidiaries will generally have priority with respect to the assets and earnings of such subsidiaries over the claims of our creditors, including holders of the notes. Accordingly, the notes will be effectively subordinated to creditors, including trade creditors and preferred stockholders, if any, of our subsidiaries.

As of September 26, 2015, we had \$21.2 billion of indebtedness outstanding, none of which was secured and \$2.1 billion of which was subordinated. After giving effect to this offering and our issuance of AUS \$250 million (approximately U.S. \$180 million as of the date of issuance) aggregate principal amount of 3.25% senior notes due 2019 and AUS \$550 million (approximately U.S. \$396 million as of the date of issuance) aggregate principal amount of 4.00% senior notes due 2022 on December 1, 2015, we would have had approximately \$22.7 billion of indebtedness outstanding as of September 26, 2015.

## **Interest**

The notes will be initially limited in aggregate principal amount to \$915,000,000 and will mature on December 14, 2045, unless earlier redeemed.

Interest on the notes will accrue from December 14, 2015 at the rate of 4.70% per annum, payable semi-annually in arrears on June 14 and December 14 of each year, beginning on June 14, 2016. Interest on the notes will be paid to the person in whose name that note is registered at the close of business on May 31 or November 30, as the case may be, immediately preceding the relevant interest payment date. Interest on the notes will be computed on the basis of a 360-day year composed of twelve 30-day months. If any interest or other payment date of a note falls on a day that is not a business day, the required payment of principal, premium, if any, or interest will be due on the next succeeding business day as if made on the date that the payment was due, and no interest will accrue on that payment for the period from and after that interest or other payment date, as the case may be, to the date of that payment on the next succeeding business day. Unless we default on a payment, no interest will accrue for that period from and after the applicable interest payment date, maturity date or redemption date. All payment dates with respect to the notes, whether at maturity, upon earlier redemption or on any interest payment date, shall be determined in accordance with the time-zone applicable to The City of New York. Because of time zone differences, the interest payment date on which we make payment may not be the same business day in the applicable jurisdiction of the relevant holder of notes. In addition, deliveries, payments and other communications involving the notes are likely to be carried out through Euroclear and Clearstream, which means such transaction can only be carried out on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States or Taiwan. See also “—Book-Entry; Delivery and Form—Clearance and Settlement Procedures” below.

## **Payment and Transfer or Exchange**

Principal of and premium, if any, and interest on the notes will be payable at the office of the paying agent in London, United Kingdom and any other location we designate. The notes may be registered for transfer or exchanged without payment of any charge (other than any tax or other governmental charge payable in connection therewith) at the office of the registrar in Dublin, Ireland. Initially, the paying agent's office in London, United Kingdom and the registrar's office in Dublin, Ireland will serve as our office and agency for these respective purposes. We may elect that payment of interest on notes be made by wire transfer or by check mailed to the address of the appropriate person

as it appears on the security register. So long as the registered owner of the notes is a common depository of Euroclear and Clearstream or their nominee, payment of principal and interest shall be made in accordance with the requirements of Euroclear and Clearstream. See “—Book-Entry; Delivery and Form; Global Notes” below.

We are not required to transfer or exchange any note selected for redemption during a period of 15 days before the electronic delivery or mailing of a notice of redemption of notes to be redeemed.

The registered holder of a note will be treated as the owner of that note for all purposes.

Subject to applicable escheat laws, all amounts of principal and of premium, if any, and interest on the notes paid by us that remain unclaimed two years after such payment was due and payable will be repaid to us upon our request, and the holders of such notes will thereafter look solely to us for payment.

### **Optional Redemption**

We have the option to redeem the notes then outstanding in whole, but not in part, on each December 14 on or after December 14, 2018. Any redemption described in this paragraph will be at a redemption price equal to 100% of the principal amount of the notes being redeemed plus accrued and unpaid interest to, but not including, the redemption date. Unless we default in payment of the redemption price, on and after the redemption date interest will cease to accrue on the notes called for redemption.

Notice of any redemption will be electronically delivered or mailed at least 30 days but not more than 60 days before the redemption date to each holder of the notes to be redeemed.

In addition, the notes are subject to redemption prior to maturity if certain events occur involving U.S. taxation. If any of these special tax events do occur, the notes will be redeemed at a redemption price of 100% of their principal amount plus any accrued and unpaid interest and additional amounts then payable with respect to the notes to, but not including, the redemption date. See “—Redemption for Tax Reasons.”

### **Further Issuances**

Subject to the receipt of all necessary regulatory and listing approvals from applicable authorities in the ROC, including but not limited to the TPEx and the TSA, we may, from time to time, without notice to or the consent of the holders of the notes, create and issue additional notes having the same terms as, and ranking equally and ratably with, the notes in all respects (except for the issue date, the offering price and, if applicable, the payment of interest accruing prior to the issue date of such additional notes and the first payment of interest following the issue date of such additional notes); *provided* that if such additional notes are not fungible with the notes offered hereby for U.S. federal income tax purposes, such additional notes will have one or more separate ISIN numbers. Such additional notes may be consolidated and form a single series with, and will have the same terms as to ranking, redemption, waivers, amendments or otherwise, as the notes, and will vote together as one class on all matters with respect to such notes.

### **Payment of Additional Amounts**

All payments of principal and interest in respect of the notes by us or a paying agent on our behalf will be made free and clear of, and without deduction or withholding for or on account of, any present or future taxes, duties, assessments or other similar governmental charges imposed or levied by the United States or any political subdivision or taxing authority of or in the United States (collectively, “Taxes”), unless such withholding or deduction is required by law.

In the event such withholding or deduction for Taxes is required by law, subject to the limitations described below, we will pay to or on account of any beneficial owner of notes who is not a U.S. Person (as defined below) such additional amounts (“Additional Amounts”) as may be necessary to ensure that the net amount received by such beneficial owner, after withholding or deduction for such Taxes, will be equal to the amount such person would have received in the absence of such withholding or deduction.

However, no Additional Amounts shall be payable for or on account of:

- (a) any Taxes which would not have been so imposed, withheld or deducted but for:
  - (1) the existence of any present or former connection between the holder or beneficial owner (or between a fiduciary, settlor, beneficiary, member or shareholder or other equity owner of, or a person having a power over, such holder or beneficial owner, if such holder or beneficial owner is an estate, a trust, a limited liability company, a partnership, a corporation or other entity or between a person related to the holder or beneficial owner) and the United States, including, without limitation, such holder or beneficial owner (or such fiduciary, settlor, beneficiary, member, shareholder or other equity owner or person having such a power) being or having been a citizen or resident or treated as a resident of the United States, being or having been engaged in a trade or business in the United States, being or having been present in the United States, or having or having had a permanent establishment in the United States;
  - (2) the failure of the holder, the beneficial owner or any other person to comply with certification, identification or information reporting requirements concerning the nationality, residence, identity or connection with the United States of the holder or beneficial owner of the notes, if compliance is required by statute, by regulation of the United States or any taxing authority therein or by an applicable income tax treaty to which the United States is a party as a precondition to exemption from such tax, assessment or other governmental charge (including, but not limited to, the requirement to provide Internal Revenue Service Form W-8BEN, Form W-8BEN-E, Form W-8ECI, or any subsequent versions thereof or successor thereto, and including, without limitation, any documentation requirement under an applicable income tax treaty); or
- (b) any Taxes imposed by reason of the holder’s or beneficial owner’s present or former status as a foreign personal holding company, or personal holding company, with respect to the United States, as a controlled foreign corporation with respect to the United States, as a passive foreign investment company with respect to the United States, as a foreign tax exempt organization with respect to the United States or as a corporation that accumulates earnings to avoid United States federal income tax;
- (c) any Taxes which would not have been imposed, withheld or deducted but for the holder or beneficial owner being or having been (x) a “10-percent shareholder” of ours as defined in section 871(h)(3) of the United States Internal Revenue Code of 1986, as amended (the “Code”) or any successor provision, (y) a controlled foreign corporation that is related to us within the meaning of Section 864(d)(4) of the Code or (z) a bank receiving payments on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business;
- (d) any Taxes which would not have been imposed, withheld or deducted but for the presentation by the holder or beneficial owner of such note for payment on a date more than

30 days after the date on which such payment became due and payable or the date on which payment of the note is duly provided for, whichever occurs later;

(e) any estate, inheritance, gift, sales, excise, transfer, personal property, wealth or similar Taxes;

(f) any Taxes which are payable otherwise than by withholding or deduction from a payment on such note;

(g) any Taxes which are imposed, withheld or deducted with respect to, or payable by, a holder that is not the beneficial owner of the note, or a portion of the note, or that is a fiduciary, partnership, limited liability company or other similar entity, but only to the extent that a beneficial owner, a beneficiary or settlor with respect to such fiduciary or member of such partnership, limited liability company or similar entity would not have been entitled to the payment of an Additional Amount had such beneficial owner, settlor, beneficiary or member received directly its beneficial or distributive share of the payment;

(h) any Taxes required to be withheld or deducted by any paying agent from any payment on any note, if such payment can be made without such withholding or deduction by at least one other paying agent;

(i) any Taxes required to be withheld or deducted where such withholding or deduction is imposed pursuant to European Council Directive 2003/48/EC on the taxation of savings income, or any law implementing or complying with, or introduced in order to conform to, such European Council Directive;

(j) any Taxes imposed, withheld or deducted under Sections 1471 through 1474 of the Code (or any amended or successor provisions), any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code;

(k) any Taxes that would not have been imposed, withheld or deducted but for a change in any law, treaty, regulation, or administrative or judicial interpretation that becomes effective more than 15 days after the applicable payment becomes due or is duly provided for, whichever occurs later; or

(l) any combination of items (a), (b), (c), (d), (e), (f), (g), (h), (i), (j) and (k).

For purposes of this section, the acquisition, ownership, enforcement, or holding of or the receipt of any payment with respect to a note will not, in and of itself, constitute a connection (1) between the holder or beneficial owner and the United States or (2) between a fiduciary, settlor, beneficiary, member or shareholder or other equity owner of, or a person having a power over, such holder or beneficial owner if such holder or beneficial owner is an estate, a trust, a limited liability company, a partnership, a corporation or other entity and the United States.

Except as specifically provided under this section “—Payment of Additional Amounts,” we will not be required to make any payment with respect to any tax, duty, assessment or other governmental charge imposed by any government or any political subdivision or taxing authority.

If we are required to pay Additional Amounts with respect to the notes, we will notify the trustee and paying agent pursuant to an officer’s certificate that specifies the Additional Amounts payable and when the Additional Amounts are payable. If the trustee and the paying agent do not receive such an officer’s certificate from us, the trustee and paying agent may rely on the absence of such an officer’s certificate in assuming that no such Additional Amounts are payable.

In addition, we undertake that, to the extent permitted by law, we will maintain a paying agent that will not require withholding or deduction of tax pursuant to European Council Directive 2003/48/EC on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to, such European Council Directive.

As used in this “—Payment of Additional Amounts,” “U.S. Person” means any individual who is a citizen or resident of the United States for U.S. federal income tax purposes, a corporation, partnership or other entity created or organized in or under the laws of the United States, any state of the United States or the District of Columbia, or any estate or trust the income of which is subject to United States federal income taxation regardless of its source.

### **Redemption for Tax Reasons**

We may redeem the notes at our option in whole, but not in part, on at least 15 days’ but not more than 60 days’ notice, at a redemption price equal to 100% of their principal amount (plus any accrued interest and additional amounts then payable with respect to the notes to, but not including, the redemption date), if we determine that (A) as a result of any change or amendment to the laws, treaties, regulations or rulings of the United States or any political subdivision or taxing authority thereof, which change or amendment is announced and becomes effective after the date of this prospectus supplement, we have or will become obligated to pay additional amounts as described under “—Payment of Additional Amounts” on any notes or (B) after the date of this prospectus supplement, any change in the official application, enforcement or interpretation of those laws, treaties, regulations or rulings, including a holding by a court of competent jurisdiction in the United States or any other action, taken by any taxing authority or a court of competent jurisdiction in the United States, whether or not such action was taken or made with respect to us, results in a material probability that we have or will become obligated to pay additional amounts as described under “—Payment of Additional Amounts” on any notes. Prior to the mailing of any notice of such a redemption, we will deliver to the trustee (1) an officer’s certificate stating that we are entitled to effect such a redemption and setting forth a statement of facts showing that the conditions precedent to the right of our company to so redeem have occurred and (2) an opinion of counsel to that effect based on that statement of facts. Unless we default in payment of the redemption price, on and after the redemption date interest will cease to accrue on the notes called for redemption.

### **Events of Default**

Each of the following is an “event of default” under the indenture for a series of notes:

- (1) a failure to pay principal of or premium, if any, on any note of such series, when due at its stated maturity date, upon redemption or otherwise;
- (2) a failure to pay interest on any note of such series, for 30 days after the date payment is due and payable;
- (3) a failure by us to comply with any covenant or agreement in the indenture for 90 days after written notice; and
- (4) the occurrence of various events of bankruptcy, insolvency or reorganization involving us as provided in the indenture.

If an event of default with respect to a series of notes occurs and is continuing, then the trustee or the holders of not less than 25% in aggregate principal amount of the outstanding notes of such series, may, by a notice in writing to us (and to the trustee if given by the holders), declare to be due and payable immediately the principal of, and accrued and unpaid interest, if any, on the applicable notes. In the case of an event of default resulting from certain events of bankruptcy, insolvency or reorganization with respect to us, the principal of and accrued and unpaid interest, if any, on all

outstanding notes will become and be immediately due and payable without any declaration or other act on the part of the trustee or any holder of notes. At any time after a declaration of acceleration with respect to the notes has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in aggregate principal amount of the outstanding notes of such series may rescind and annul the acceleration if all events of default, other than the non-payment of accelerated principal and interest, if any, with respect to such notes, have been cured or waived as provided in the indenture. The holders of a majority in aggregate principal amount of the outstanding notes of such series also have the right to waive past defaults, other than the non-payment of principal of or premium or interest, if any, on any such outstanding note, or in respect of a covenant or a provision that cannot be modified or amended without the consent of all holders of the applicable notes.

The indenture provides that the trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any holder of notes, unless the trustee receives indemnity satisfactory to it against any loss, liability or expense. Subject to certain rights of the trustee, the holders of a majority in principal amount of the outstanding notes of a series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee with respect to such notes.

No holder of any note will have any right to institute any proceeding, judicial or otherwise, with respect to the indenture or for the appointment of a receiver or trustee, or for any remedy under the indenture, unless:

- that holder has previously given to the trustee written notice of a continuing event of default with respect to such series of notes;
- the holders of at least 25% in aggregate principal amount of the outstanding notes of such series have made written request, and offered indemnity satisfactory to the trustee against the costs, expenses and liabilities to be incurred in compliance with such request, to institute the proceeding as trustee; and
- the trustee has not instituted the proceeding, has not received from the holders of a majority in aggregate principal amount of the outstanding notes of such series a direction inconsistent with that request and has failed to institute the proceeding within the preceding 60 days.

Notwithstanding the foregoing, the holder of any note will have an absolute and unconditional right to receive payment of the principal of, premium and any interest on that note on or after the due dates expressed in that note and to institute suit for the enforcement of such payment.

The trustee will, within 90 days after any default occurs of which it has actual knowledge, give notice of the default to the holders of the notes of that series, unless the default has been already cured or waived. Unless there is a default in paying principal, interest or any premium when due, the trustee can withhold giving notice to the holders if it determines in good faith that the withholding of notice is in the interest of the holders of such notes.

We are required to furnish to the trustee an annual statement as to compliance with all conditions and covenants under the indenture.

### **Modification and Waiver**

We and the trustee may execute a supplemental indenture without the consent of the holders of the notes in order to:

- cure ambiguities, omissions, defects or inconsistencies as evidenced by an officer's certificate;

- make any change that would provide any additional rights or benefits to the holders of the notes of a series;
- provide for or add guarantors with respect to the notes of any series;
- secure the notes of any series;
- provide for uncertificated notes of any series in addition to or in place of certificated notes of the applicable series;
- evidence and provide for the acceptance of appointment by a successor trustee;
- provide for the assumption by our successor, if any, of our obligations to holders of any outstanding notes of any series in compliance with the provisions of the indenture;
- maintain the qualification of the indenture under the Trust Indenture Act; or
- make any change that does not adversely affect the rights of any holder of notes in any material respect.

We may issue separate series of notes under the base indenture in the future without the consent of the holders of any other series and in such event may modify the indenture with respect to such separate series in accordance with its terms.

Other amendments and modifications of the indenture or the notes may be made with the consent of the holders of not less than a majority in aggregate principal amount of the outstanding notes of each series affected by the amendment or modification (voting together as a single class), and our compliance with any provision of the indenture with respect to any series of notes may be waived by written notice to us and the trustee by the holders of a majority of the aggregate principal amount of the outstanding notes of each series affected by the waiver (voting together as a single class). However, no modification or amendment may, without the consent of the holder of each outstanding note affected:

- reduce the principal amount, extend the fixed maturity, or alter or waive the redemption provisions of the notes;
- impair the right of any holder of the notes to receive payment of principal of or premium or interest on the notes (including upon redemption) on and after the due dates for such principal, premium or interest;
- change the currency in which principal, any premium or interest is paid;
- reduce the percentage in principal amount outstanding of notes of any series which must consent to an amendment, supplement or waiver or consent to take any action;
- impair the right to institute suit for the enforcement of any payment on the notes;
- waive a payment default with respect to the notes or any future guarantor of a series of notes;
- reduce the interest rate or extend the time for payment of interest on the notes; or
- adversely affect the ranking of the notes of any series.

## **Book-Entry; Delivery and Form; Global Notes**

### *General*

We have obtained the information in this section concerning Clearstream, Euroclear and their book-entry systems and procedures from sources that we believe to be reliable. We take no responsibility for an accurate portrayal of this information. In addition, the description of the clearing

systems in this section reflects our understanding of the rules and procedures of Clearstream and Euroclear as they are currently in effect. Those clearing systems could change their rules and procedures at any time.

The notes will be issued in registered, global form, in minimum denominations of \$100,000 and integral multiples of \$1,000 above that amount. Initially, the notes will be represented by one or more permanent global certificates (the “global notes”) (which may be subdivided) in definitive, fully registered form without interest coupons.

Each such global note will be deposited with, or on behalf of, a common depository, and registered in the name of the nominee of the common depository for the accounts of Clearstream and Euroclear. Except as set forth below, the global notes may be transferred, in whole and not in part, only to Euroclear or Clearstream or their respective nominees. You may hold your interests in the global notes in Europe through Clearstream or Euroclear, either as a participant in such systems or indirectly through organizations which are participants in such systems. Clearstream and Euroclear will hold interests in the global notes on behalf of their respective participating organizations or customers through customers’ securities accounts in Clearstream’s or Euroclear’s names on the books of their respective depositories. Book-entry interests in the notes and all transfers relating to the notes will be reflected in the book-entry records of Clearstream and Euroclear.

The distribution of the notes will be cleared through Clearstream and Euroclear. Any secondary market trading of book-entry interests in the notes will take place through Clearstream and Euroclear participants and will settle in same-day funds. Owners of book-entry interests in the notes will receive payments relating to their notes in U.S. dollars.

Clearstream and Euroclear have established electronic securities and payment transfer, processing, depository and custodial links among themselves and others, either directly or through custodians and depositories. These links allow the notes to be issued, held and transferred among the clearing systems without the physical transfer of certificates. Special procedures to facilitate clearance and settlement have been established among these clearing systems to trade securities across borders in the secondary market.

The policies of Clearstream and Euroclear will govern payments, transfers, exchanges and other matters relating to the investor’s interest in the notes held by them. We have no responsibility for any aspect of the records kept by Clearstream or Euroclear or any of their direct or indirect participants. We also do not supervise these systems in any way.

Clearstream and Euroclear and their participants perform these clearance and settlement functions under agreements they have made with one another or with their customers. You should be aware that they are not obligated to perform or continue to perform these procedures and may modify them or discontinue them at any time.

Except as provided below, owners of beneficial interests in the notes will not be entitled to have the notes registered in their names, will not receive or be entitled to receive physical delivery of the notes in definitive form and will not be considered the owners or holders of the notes under the indenture, including for purposes of receiving any reports delivered by us or the trustee pursuant to the indenture. Accordingly, each person owning a beneficial interest in a note must rely on the procedures of the depository and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, in order to exercise any rights of a holder of notes.

We have been advised by Clearstream and Euroclear, respectively, as follows:

***Clearstream***

Clearstream advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participating organizations (“Clearstream Participants”) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream Participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the managers. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream Participant, either directly or indirectly.

Distributions with respect to interests in the notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures.

***Euroclear***

Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear (“Euroclear Participants”) and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the “Euroclear Operator”). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the managers. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, or the Euroclear Terms and Conditions, and applicable Belgian law govern securities clearance accounts and cash accounts with the Euroclear Operator. Specifically, these terms and conditions govern:

- transfers of securities and cash within Euroclear;
- withdrawal of securities and cash from Euroclear; and
- receipt of payments with respect to securities in Euroclear.

All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the terms and conditions only on behalf of Euroclear Participants and has no record of or relationship with persons holding securities through Euroclear Participants.

Distributions with respect to interests in the notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the Euroclear Terms and Conditions.

#### ***Clearance and Settlement Procedures***

We understand that investors that hold their notes through Clearstream or Euroclear accounts will follow the settlement procedures that are applicable to conventional eurobonds in registered form. notes will be credited to the securities custody accounts of Clearstream and Euroclear participants on the business day following the settlement date, for value on the settlement date. They will be credited either free of payment or against payment for value on the settlement date.

We understand that secondary market trading between Clearstream and/or Euroclear participants will occur in the ordinary way following the applicable rules and operating procedures of Clearstream and Euroclear. Secondary market trading will be settled using procedures applicable to conventional eurobonds in registered form.

You should be aware that investors will only be able to make and receive deliveries, payments and other communications involving the notes through Clearstream and Euroclear on days when those systems are open for business. Those systems may not be open for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, there may be problems with completing transactions involving Clearstream and Euroclear on the same business day as in the United States or Taiwan. U.S. or Taiwanese investors who wish to transfer their interests in the notes, or to make or receive a payment or delivery of the notes, on a particular day, may find that the transactions will not be performed until the next business day in Luxembourg or Brussels, depending on whether Clearstream or Euroclear is used.

Clearstream or Euroclear will credit payments to the cash accounts of Clearstream customers or Euroclear participants, as applicable, in accordance with the relevant system's rules and procedures, to the extent received by its depositary. Clearstream or the Euroclear Operator, as the case may be, will take any other action permitted to be taken by a holder under the indenture on behalf of a Clearstream customer or Euroclear participant only in accordance with its relevant rules and procedures.

Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of the notes among participants of Clearstream and Euroclear. However, they are under no obligation to perform or continue to perform those procedures, and they may discontinue those procedures at any time.

#### ***ROC Trading***

Investors with a securities book-entry account with a Taiwan securities broker and a foreign currency deposit account with a Taiwan bank, may request the approval of the Taiwan Depository & Clearing Corporation ("TDCC") for the settlement of the notes through the account of TDCC with Euroclear or Clearstream and if such approval is granted by TDCC, the notes may be so cleared and settled. In such circumstances, TDCC will allocate the respective book-entry interest of such investor in the notes position to the securities book-entry account designated by such investor in the ROC. The notes will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and the TPEX as domestic bonds.

In addition, an investor may apply to TDCC (by filing in a prescribed form) to transfer the notes in its own account with Euroclear or Clearstream to the TDCC account with Euroclear or Clearstream for trading in the domestic market or vice versa for trading in overseas markets.

For such investors who hold their interest in the notes through an account opened and held by TDCC with Euroclear or Clearstream, distributions of principal and/or interest for the notes to such holders may be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the holders. Such payment is expected to be made on the second Taiwanese business day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one Taiwanese business day after the distribution date). However, when the holders will actually receive such distributions may vary depending upon the daily operations of the Taiwan banks with which the holder has the foreign currency deposit account.

***Exchange of Book-Entry Notes for Certificated Notes***

The global notes are exchangeable for certificated notes in definitive, fully registered form without interest coupons only in the following limited circumstances:

- the depositary (1) notifies us that it is unwilling or unable to continue as depositary for the global notes and we fail to appoint a successor depositary within 90 days or (2) has ceased to be a clearing agency registered under the Exchange Act and we fail to appoint a successor depositary within 90 days; or
- we notify the trustee in writing that we have elected to cause the issuance of certificated notes under the indenture.

In all cases, certificated notes delivered in exchange for any global notes or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by or on behalf of the depositary. It is expected that the depositary's instructions will be based upon directions received by the depositary from participants with respect to ownership of beneficial interests in the relevant global note or notes that had been held by the depositary.

***Notices***

Any notices required to be given to the holders of the notes will be given to the depositary, as the registered holder of the global notes. In the event that the global notes are exchanged for notes in definitive form, notices to holders of the notes will be sent electronically or mailed by first-class mail, postage prepaid, to the addresses that appear on the register of noteholders maintained by the registrar.

***The Trustee***

Wells Fargo Bank, National Association, as successor trustee, is the trustee under the base indenture. The trustee's current address is 333 S. Grand Avenue, Fifth Floor, Suite 5A, Los Angeles, California 90071. The trustee is one of a number of banks with which we maintain ordinary banking relationships.

## CERTAIN MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a general summary of certain material U.S. federal income tax consequences of the acquisition, ownership and disposition of the notes. This discussion is based upon the Code, the U.S. Treasury regulations promulgated thereunder, administrative pronouncements and judicial decisions, all as of the date hereof and all of which are subject to change, possibly with retroactive effect. Unless otherwise indicated, this summary addresses only the U.S. federal income tax consequences relevant to investors that purchase notes for cash at the time of original issuance at their “issue price” (generally the first price at which a substantial amount of the notes are sold for money to the public, not including purchases by bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers) and applies only to beneficial owners that hold the notes as “capital assets” within the meaning of Section 1221 of the Code.

This summary does not address all of the U.S. federal income tax considerations that may be relevant to a particular holder in light of the holder’s individual circumstances or to holders subject to special rules under U.S. federal income tax laws, such as banks and other financial institutions, insurance companies, real estate investment trusts, regulated investment companies, tax-exempt organizations, entities and arrangements classified as partnerships for U.S. federal income tax purposes and other pass-through entities, dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of accounting, persons liable for U.S. federal alternative minimum tax, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, certain U.S. expatriates, and persons holding notes as part of a “straddle,” “hedge,” “conversion transaction,” or other integrated investment. The discussion does not address any foreign, state, local or non-income tax consequences of the acquisition, ownership or disposition of the notes.

As used in this prospectus supplement, the term “U.S. Holder” means a beneficial owner of a note that is for U.S. federal income tax purposes:

- an individual citizen or resident of the United States;
- a corporation created or organized in or under the laws of the United States or any state or political subdivision thereof;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust, if (i) a U.S. court is able to exercise primary supervision over the trust’s administration and one or more “United States persons” (as defined in the Code) have the authority to control all substantial decisions of the trust, or (ii) the trust has in effect a valid election to be treated as a “United States person” (as defined in the Code).

The term “Non-U.S. Holder” means any beneficial owner of a note that is not a U.S. Holder and is not a partnership (including any entity or arrangement properly classified as a partnership for U.S. federal income tax purposes). For the purposes of this summary, U.S. Holders and Non-U.S. Holders are referred to collectively as “holders.”

If a partnership (or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) is a beneficial owner of a note, the U.S. federal income tax treatment of a partner in that partnership will generally depend upon the status of the partner and the activities of the partnership. A beneficial owner of a note that is a partnership and partners in such partnerships are urged to consult with their own tax advisors regarding the U.S. federal income and other tax consequences of the acquisition, ownership and disposition of the notes.

**This discussion is for general purposes only. Holders are urged to consult their own tax advisors regarding the application of the U.S. federal income tax laws to their particular situations and the consequences under federal estate or gift tax laws, as well as foreign, state, and local laws and tax treaties, and the possible effects of changes in tax laws.**

## **Payments under Certain Events**

We may be required, under certain circumstances, to pay additional amounts in respect of the notes (as described in “Description of Notes—Payment of Additional Amounts”). Although the issue is not free from doubt, we intend to take the position that the possibility that we will be required to pay such additional amounts does not result in the notes being treated as contingent payment debt instruments under the applicable U.S. Treasury regulations. Our position is binding on a holder, unless such holder explicitly discloses to the U.S. Internal Revenue Service (“IRS”) on its tax return for the year during which it acquires the notes that it is taking a different position. However, our position is not binding on the IRS. If the IRS takes a contrary position to that described above, the timing and character of a holder’s income and the timing of our deductions with respect to the notes could be affected. Holders of notes should consult their tax advisors regarding the tax consequences of the notes being treated as contingent payment debt instruments. The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments for U.S. federal income tax purposes.

### **U.S. Holders**

#### *Payments of Interest*

It is anticipated, and this discussion assumes, that the notes will be issued without original issue discount for federal income tax purposes. In such case, interest on a note will generally be treated as ordinary income at the time it is paid or accrued in accordance with your usual method of accounting for tax purposes. If, however, the notes are issued for an amount less than the principal amount and the difference is more than a de minimis amount (as set forth in the Code), you will be required to include the difference in income as original issue discount as it accrues in accordance with a constant-yield method based on a compounding of interest, before the receipt of cash payments attributable to this income.

#### *Sale, Exchange, Redemption or Other Taxable Disposition of the Notes*

Upon the sale, exchange, redemption or other taxable disposition of the notes, a U.S. Holder will generally recognize gain or loss equal to the difference, if any, between (i) the amount realized upon the sale, exchange, redemption or other taxable disposition of the notes, other than amounts attributable to accrued and unpaid interest (which will be treated as ordinary interest income to the extent such interest has not been previously included in income) and (ii) the U.S. Holder’s adjusted tax basis in the notes. The amount realized by a U.S. Holder is the sum of cash plus the fair market value of all other property received on such sale, exchange, redemption or other taxable disposition. A U.S. Holder’s adjusted tax basis in a note will generally equal the cost of the note.

The gain or loss a U.S. Holder recognizes on the sale, exchange, redemption or other taxable disposition of the notes will generally be long-term capital gain or loss if, at the time of the sale, exchange, redemption, or other taxable disposition, the U.S. Holder’s holding period in the notes exceeds one year. For non-corporate U.S. Holders, long-term capital gains are currently taxed at a lower rate than ordinary income. The deductibility of capital losses is subject to limitations. U.S. Holders are urged to consult their own tax advisors regarding the deductibility of capital losses in light of their particular circumstances.

#### *Medicare Tax*

U.S. Holders who are individuals, estates or certain trusts are subject to an additional 3.8% Medicare tax on the lesser of (a) the U.S. person’s “net investment income” (or undistributed “net investment income” in the case of an estate or trust) for the relevant taxable year and (b) the excess of the U.S. person’s modified gross income for the taxable year over a certain threshold (which in the case

of individuals will be between \$125,000 and \$250,000 depending on the individual's circumstances). Net investment income will generally include interest income and net gains from the disposition of the notes, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). A U.S. Holder that is an individual, estate or trust should consult its tax advisor regarding the applicability of the Medicare tax to its income and gains in respect of its investment in the notes.

#### *Backup Withholding and Information Reporting*

In general, a U.S. Holder that is not an "exempt recipient" will be subject to U.S. federal backup withholding tax at the applicable rate (currently 28%) with respect to payments on the notes and the proceeds of a sale, exchange, redemption or other taxable disposition of the notes, unless the U.S. Holder provides its taxpayer identification number to the paying agent and certifies, under penalty of perjury, that it is not subject to backup withholding on an IRS Form W-9 (Request for Taxpayer Identification Number and Certification) or an applicable successor form and otherwise complies with the applicable requirements of the backup withholding rules. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder may be allowed as a credit against such U.S. Holder's U.S. federal income tax liability and may entitle such U.S. Holder to a refund, provided the required information is furnished to the IRS in a timely manner. In addition, payments on the notes made to, and the proceeds of a sale or other taxable disposition by, a U.S. Holder will generally be subject to information reporting requirements, unless such U.S. Holder is an exempt recipient and appropriately establishes that exemption.

#### **Non-U.S. Holders**

##### *Payments of Interest*

Subject to the discussions below under "—Backup Withholding and Information Reporting" and "—Foreign Account Tax Compliance Act," a Non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on interest paid on the notes as long as that interest is not "effectively connected" with the Non-U.S. Holder's conduct of a trade or business within the United States and:

- the Non-U.S. Holder does not, directly or indirectly, actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote;
- the Non-U.S. Holder is not a "controlled foreign corporation" for U.S. federal income tax purposes that is related to us, actually or by attribution, through stock ownership;
- the Non-U.S. Holder is not a bank receiving the interest pursuant to a loan agreement entered into in the ordinary course of the Non-U.S. Holder's trade or business; and
- either (i) the Non-U.S. Holder certifies under penalties of perjury on IRS Form W-8BEN or W-8BEN-E, as applicable, or an applicable successor form that it is not a "U.S. person" (as defined in the Code), and provides its name, address and certain other required information or (ii) a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business and holds the notes on behalf of the Non-U.S. Holder certifies under penalties of perjury that the certification referred to in clause (i) has been received from the Non-U.S. Holder or an intermediate financial institution and furnishes to us a copy thereof.

A Non-U.S. Holder that does not qualify for exemption from withholding as described above will generally be subject to withholding of U.S. federal income tax at a rate of 30% on payments of interest on the notes (except as described below with respect to effectively connected income). A Non-U.S. Holder may be entitled to the benefits of an income tax treaty under which interest on the notes is

subject to a reduced rate of withholding tax or is exempt from U.S. withholding tax, provided the Non-U.S. Holder furnishes us with a properly executed IRS Form W-8BEN or W-8BEN-E, as applicable, or an applicable successor form claiming the reduction or exemption and the Non-U.S. Holder complies with any other applicable procedures.

#### *Sale, Exchange, Redemption or Other Taxable Disposition of the Notes*

Generally, subject to the discussions below under “—Backup Withholding and Information Reporting” and “—Foreign Account Tax Compliance Act,” any gain recognized by a Non-U.S. Holder on the sale, exchange, redemption or other taxable disposition of a note (other than amounts attributable to accrued and unpaid interest, which will generally be treated as described under “—Payments of Interest” above) will be exempt from U.S. federal income and withholding tax, unless

- the gain is effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States (and, if a treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), in which case the Non-U.S. Holder generally will be subject to U.S. federal income tax in the manner described below under “—Effectively Connected Income”; or
- the Non-U.S. Holder is an individual who is present in the United States for 183 days or more during the taxable year of the sale or other disposition, and certain other conditions are met, in which case the Non-U.S. Holder generally will be subject to U.S. federal income tax at a rate of 30% (unless a lower treaty rate applies) on the amount by which its U.S. source capital gains exceed its U.S. source capital losses.

#### *Effectively Connected Income*

If interest or gain recognized by a Non-U.S. Holder on a note is “effectively connected” with the Non-U.S. Holder’s conduct of a trade or business within the United States (and, if a treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the United States), then the Non-U.S. Holder will be exempt from the withholding tax on interest if the Non-U.S. Holder provides us with a properly completed and executed IRS Form W-8ECI or an applicable successor form, but the Non-U.S. Holder will generally be subject to U.S. federal income tax on such interest or gain as if it were a “United States person” (as defined in the Code). In addition to such U.S. federal income tax, if the Non-U.S. Holder is treated as a corporation for U.S. federal income tax purposes, it may be subject to an additional branch profits tax currently at a rate of 30%, or such lower rate provided by an applicable income tax treaty.

#### *Backup Withholding and Information Reporting*

Under current U.S. Treasury regulations, we must report annually to the IRS and to each Non-U.S. Holder the amount of interest paid to the Non-U.S. Holder and the amount of tax withheld, if any, from those payments. These reporting requirements apply regardless of whether U.S. withholding tax on such payments was reduced or eliminated by any applicable tax treaty or otherwise. Copies of the information returns reporting those payments and the amounts withheld may also be made available to the tax authorities in the country where a Non-U.S. Holder is a resident under the provisions of an applicable income tax treaty or agreement.

Under some circumstances, U.S. Treasury regulations require backup withholding and additional information reporting on payments of interest and other “reportable payments.” Such backup withholding and additional information reporting will not apply to payments on the notes made by us or our paying agent to a Non-U.S. Holder if the certification described above under “—Payments of Interest” is received from the Non-U.S. Holder.

Backup withholding and information reporting will generally not apply to payments of proceeds from the sale or other disposition of a note made to a Non-U.S. Holder by or through the foreign office of a broker. However, information reporting requirements, and possibly backup withholding, will apply if such broker is, for U.S. federal income tax purposes, a “United States person” (as defined in the Code) or has certain other enumerated connections with the United States, unless such broker has documentary evidence in its records that the Non-U.S. Holder is not a “United States person” (as defined in the Code) and certain other conditions are met, or the Non-U.S. Holder otherwise establishes an exemption. Payments of proceeds from the sale or other disposition of a note made to a Non-U.S. Holder by or through the U.S. office of a broker are subject to information reporting and backup withholding at the applicable rate unless the Non-U.S. Holder certifies, under penalties of perjury, that it is not a “United States person” (as defined in the Code) and it satisfies certain other conditions, or the Non-U.S. Holder otherwise establishes an exemption. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. Holder may be allowed as a credit against such Non-U.S. Holder’s U.S. federal income tax liability and may entitle such Non-U.S. Holder to a refund, provided the required information is furnished to the IRS in a timely manner.

Non-U.S. Holders are urged to consult their tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom, and the procedures for obtaining such an exemption, if available.

#### *Foreign Account Tax Compliance Act*

Under the Foreign Account Tax Compliance Act (“FATCA”), withholding taxes may apply to certain types of payments made to “foreign financial institutions” (as specially defined in the Code) and certain other non-United States entities. Specifically, a 30% withholding tax may be imposed on interest on, and gross proceeds from the sale or other disposition of, notes paid to a foreign financial institution or to a non-financial foreign entity, unless (1) the foreign financial institution undertakes certain diligence and reporting, (2) the non-financial foreign entity either certifies it does not have any substantial United States owners or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in clause (1) above, then, pursuant to an agreement between it and the U.S. Treasury or an intergovernmental agreement between, generally, the jurisdiction in which it is resident and the U.S. Treasury, it must, among other things, identify accounts held by certain United States persons or United States owned foreign entities, annually report certain information about such accounts, and withhold 30% on payments to non-compliant foreign financial institutions and certain other account holders.

The withholding provisions described above will generally not apply to payments of gross proceeds from a sale or other disposition of notes until on or after January 1, 2019. Holders should consult their tax advisors regarding FATCA and the regulations thereunder.

**The U.S. federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a holder’s particular situation. Holders are urged to consult their own tax advisors with respect to the tax consequences to them of the acquisition, ownership and disposition of the notes, including the tax consequences under state, local, estate, foreign and other tax laws and tax treaties and the possible effects of changes in U.S. or other tax laws.**

## ROC TAXATION

*The following general description of certain taxation provisions under ROC law is based on current law and practice and an assumption that the notes will be issued, offered, sold and re-sold to professional institutional investors as defined under Paragraph 2 of Article 4 of the Financial Consumer Protection Act of the ROC only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. It does not purport to be comprehensive and does not constitute legal or tax advice. Investors (particularly those subject to special tax rules, such as banks, dealers, insurance companies and tax-exempt entities) should consult with their own tax advisors regarding the tax consequences of an investment in the notes.*

### **Interest on the Notes**

As we, the issuer of the notes, are not an ROC statutory tax withholder, there is no ROC withholding tax on the interest to be paid on the notes. ROC corporate holders must include the interest receivable under the notes as part of their taxable income and pay income tax at a flat rate of 17% (unless the total taxable income for a fiscal year is under NT\$120,000), as they are subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax (“AMT”) is not applicable. Non-ROC corporate holders are subject to ROC income tax on ROC-sourced income only and the interest receivable under the notes is not ROC-sourced income. Hence non-ROC corporate holders have no ROC income tax issue with the interest receivable under the notes. AMT does not apply either.

### **Sale of the Notes**

In general, the sale of corporate bonds or financial bonds is subject to a 0.1% securities transaction tax (“STT”) on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act of the ROC prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds for seven years from January 1, 2010 to December 31, 2016. Therefore, the sale of the notes will be exempt from STT if the sale is conducted on or before December 31, 2016. Starting from January 1, 2017, any sale of the notes will be subject to STT at 0.1% of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are deemed ROC-sourced income but exempt from income tax. Accordingly, ROC corporate holders are not subject to income tax on any capital gains generated from the sale of the notes. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the AMT Act of the ROC, the excess becomes the ROC corporate holders’ AMT payable. Capital losses, if any, incurred by such holders could be carried over five years to offset against capital gains of same category of income for the purposes of calculating their AMT.

Non-ROC corporate holders with a fixed place of business (e.g., a branch) or a business agent in the ROC are not subject to income tax on any capital gains generated from the sale of the notes. However, their fixed place of business or business agent should include any such capital gains in calculating their basic income for the purpose of calculating AMT.

As to non-ROC corporate holders without a fixed place of business or a business agent in the ROC, they are not subject to income tax or AMT on any capital gains generated from the sale of the notes.

### New Issue of Notes

The notes are a new issue of securities with no established trading market. Application will be made to the TPEX for the listing of, and permission to deal in, the notes by way of debt issues to professional institutional investors as defined under Paragraph 2 of Article 4 of the Financial Consumer Protection Act of the ROC only and such permission is expected to become effective on or about

December 14, 2015. We cannot make any assurance that the TPEx listing will be maintained. The managers are not obligated to carry out market-making activities with respect to the notes. Accordingly, we cannot assure you as to the liquidity of, or the trading market for, the notes.

We expect to deliver the notes against payment therefor on or about the date specified in the last paragraph of the cover page of this prospectus supplement, which will be the seventh business day following the date of the pricing of the notes. Accordingly, purchasers who wish to trade notes prior to the third business day preceeding the settlement date will be required, by virtue of the fact that the notes initially will settle in T+7, to specify alternative settlement arrangements to prevent a failed settlement.

	Nine Months Ended		Years Ended				
	September 26, 2015	September 27, 2014	Dec 27, 2014	Dec 28, 2013	Dec 29, 2012	Dec 31, 2011	Dec 25, 2010
Ratio of earnings to fixed charges . . . . .	24x	31x	33x	25x	42x	80x	90x

The following sets forth certain general terms and provisions of the indenture under which the debt securities are to be issued, unless otherwise specified in a prospectus supplement. The particular terms of the debt securities to be sold by us will be set forth in a prospectus supplement relating to such debt securities. For purposes of this description of debt securities, references to “the Company,” “Intel,” “we,” “our,” and “us” refer only to Intel Corporation and not to its subsidiaries.

The debt securities will represent unsecured general obligations of the Company, unless otherwise provided in the prospectus supplement. As indicated in the applicable prospectus supplement, the debt securities will either be senior debt or subordinated debt as described in the applicable prospectus supplement. Unless otherwise specified in the applicable prospectus supplement, the debt securities will be issued under either an indenture dated as of March 29, 2006 between us and Wells Fargo Bank, National Association, as Successor Trustee to Citibank, N.A., that has been filed as an exhibit to the registration statement of which this prospectus is a part, subject to such amendments or supplemental indentures as are adopted, from time to time, including the First Supplemental Indenture dated as of December 3, 2007 between us and Wells Fargo Bank, National Association, as Successor Trustee to Citibank, N.A. The following summary of certain provisions of that indenture does not purport to be complete and is subject to, and qualified in its entirety by, reference to all the provisions of that indenture, including the definitions therein of certain terms. Wherever particular sections or defined terms of the indenture are referred to, it is intended that such sections or defined terms shall be incorporated herein by reference.

The applicable prospectus supplement with respect to any debt securities will set forth the following terms of the debt securities offered pursuant thereto: (i) the title and series of such debt securities, including CUSIP numbers; (ii) any limit upon the aggregate principal amount of such debt securities of such title or series; (iii) whether such debt securities will be in global or other form; (iv) the date(s) and method(s) by which principal and any premium on such debt securities is payable; (v) interest rate or rates (or method by which such rate will be determined), if any; (vi) the dates on which any such interest will be payable and the method of payment; (vii) whether and under what circumstances any additional amounts are payable with respect to such debt securities; (viii) the notice, if any, to holders of such debt securities regarding the determination of interest on a floating rate debt security; (ix) the basis upon which interest on such debt securities shall be calculated, if other than that of a 360 day year of twelve 30-day months; (x) the place or places where the principal of and interest or additional amounts, if any, on such debt securities will be payable; (xi) any redemption or sinking fund provisions; (xii) the denominations of such debt securities; (xiii) any rights of the holders of such debt securities to convert the debt securities into other securities or property; (xiv) the terms, if any, on which payment of principal or any premium, interest or additional amounts on such debt securities will be payable in a currency other than U.S. dollars; (xv) the terms, if any, by which the amount of payments of principal or any premium, interest or additional amounts on such debt securities may be determined by reference to an index, formula, financial or economic measure or other methods; (xvi) if other than the principal amount hereof, the portion of the principal amount of such debt securities that will be payable upon declaration of acceleration of the maturity thereof or provable in bankruptcy; (xvii) any events of default or covenants in addition to or in lieu of those described herein and remedies therefor; (xviii) whether such debt securities will be subject to defeasance or covenant defeasance; (xix) the terms, if any, upon which such debt securities are to be issuable upon the exercise of warrants; (xx) any trustees other than Wells Fargo Bank, National Association, and any authenticating or paying agents, transfer agents or registrars or any other agents with respect to such debt securities; (xxi) the terms, if any, on which such debt securities will be subordinate to other debt of the Company; and (xxii) any

other specific terms of such debt securities and any other deletions from or additions to or modifications of the indenture with respect to such debt securities.

Such services will be provided without charge, other than any tax or other governmental charge payable in connection therewith, but subject to the limitations provided in the indenture.

The indenture does not contain any covenant or other specific provision affording protection to holders of the debt securities in the event of a highly leveraged transaction or a change in control of the Company, except to the limited extent described below under “—Consolidation, Merger and Sale of Assets.” The Company’s certificate of incorporation also contains other provisions which may prevent or limit a change of control. See “Description of Capital Stock” below.

### **Modification and Waiver**

The indenture provides that supplements to the indenture and the applicable supplemental indentures may be made by the Company and the trustee for the purpose of adding any provisions to or changing in any manner or eliminating any of the provisions of the indenture or of modifying in any manner the rights of the holders of debt securities of a series under the indenture or the debt securities of such series, with the consent of the holders of a majority (or such other amount as is provided for a particular series of debt securities) in principal amount of the outstanding debt securities issued under such indenture that are affected by the supplemental indenture, voting as a single class; provided that no such supplemental indenture may, without the consent of the holder of each such debt security affected thereby, among other things: (a) change the stated maturity of the principal of, or any premium, interest or additional amounts on, such debt securities, or reduce the principal amount thereof, or reduce the rate or extend the time of payment of interest or any additional amounts thereon, or reduce any premium payable on redemption thereof, or reduce the amount of the principal of debt securities issued with original issue discount that would be due and payable upon an acceleration of the maturity thereof or the amount thereof provable in bankruptcy, or change the redemption provisions or adversely affect the right of repayment at the option of the holder, or change the place of payment or currency in which the principal of, or any premium, interest or additional amounts with respect to any debt security is payable, or impair or affect the right of any holder of debt securities to institute suit for the payment thereof or, if such debt securities provide therefor, any right of repayment at the option of the holder, (b) reduce the percentage of outstanding debt securities of any series, the consent of the holders of which is required for any such supplemental indenture, or the consent of whose holders is required for any waiver or reduce the quorum required for voting; (c) modify any of the provisions of the sections of such indenture relating to supplemental indentures with the consent of the holders, waivers of past defaults or securities redeemed in part, except to increase any such percentage or to provide that certain other provisions of such indenture cannot be modified or waived without the consent of each holder affected thereby; or (d) make any change that adversely affects the right to convert or exchange any security into or for common stock or other securities, cash or other property in accordance with the terms of the applicable debt security.

The indenture provides that a supplemental indenture that changes or eliminates any covenant or other provision of the indenture that has expressly been included solely for the benefit of one or more particular series of debt securities, or that modifies the rights of the holders of such series with respect to such covenant or other provision, shall be deemed not to affect the rights under the indenture of the holders of debt securities of any other series.

The indenture provides that the Company and the applicable trustee may, without the consent of the holders of any series of debt securities issued thereunder, enter into additional supplemental indentures for one of the following purposes: (1) to evidence the succession of another corporation to

the Company and the assumption by any such successor of the covenants of the Company in such indenture and in the debt securities issued thereunder; (2) to add to the covenants of the Company or to surrender any right or power conferred on the Company pursuant to the Indenture; (3) to establish the form and terms of debt securities issued thereunder; (4) to evidence and provide for a successor trustee under such indenture with respect to one or more series of debt securities issued thereunder or to provide for or facilitate the administration of the trusts under such indenture by more than one trustee; (5) to cure any ambiguity, to correct or supplement any provision in the indenture that may be inconsistent with any other provision of the indenture or to make any other provisions with respect to matters or questions arising under such indenture which shall not adversely affect the interests of the holders of any series of debt securities issued thereunder in any material respect; (6) to add to, delete from or revise the conditions, limitations and restrictions on the authorized amount, terms or purposes of issue, authentication and delivery of securities under the indenture; (7) to add any additional events of default with respect to all or any series of debt securities; (8) to supplement any of the provisions of the indenture as may be necessary to permit or facilitate the defeasance and discharge of any series of debt securities, provided that such action does not adversely affect the interests of any holder of an outstanding debt security of such series or any other security in any material respect; (9) to make provisions with respect to the conversion or exchange rights of holders of debt securities of any series; (10) to amend or supplement any provision contained in such indenture or any supplemental indenture, provided that no such amendment or supplement shall materially adversely affect the interests of the holders of any debt securities then outstanding; or (11) to qualify such indenture under the Trust Indenture Act of 1939.

#### **Events of Default**

Unless otherwise provided in any prospectus supplement, the following will be events of default under the indenture with respect to each series of debt securities issued thereunder: (a) default in the payment of principal (or premium, if any) or any additional amounts with respect to such principal or premium on any series of the debt securities outstanding under the indenture when due; (b) default in the payment of any interest or any additional amounts with respect to such interest on any series of the debt securities outstanding under the indenture when due, continued for 30 days; (c) default in the payment, if any, of any sinking fund installment when and as due by the terms of any debt security of such series, subject to any cure period that may be specified in any debt security of such series; (d) failure to perform any other covenant or warranty of the Company contained in such indenture or such debt securities continued for 90 days after written notice; (e) certain events of bankruptcy, insolvency or reorganization of the Company; and (f) any other event of default provided in a supplemental indenture with respect to a particular series of debt securities. In case an event of default other than a default specified in clause (e) above shall occur and be continuing with respect to any series of such debt securities, the applicable trustee or the holders of not less than 25% in aggregate principal amount of the debt securities of such series then outstanding (each such series acting as a separate class) may declare the principal (or, in the case of discounted debt securities, the amount specified in the terms thereof) of such series to be due and payable. If an event of default described in (e) above shall occur and be continuing then the principal amount (or, in the case of discounted debt securities, the amount specified in the terms thereof) of all the debt securities outstanding shall be and become due and payable immediately, without notice or other action by any holder or the applicable trustee, to the full extent permitted by law. Any event of default with respect to particular series of debt securities under such indenture may be waived by the holders of a majority in aggregate principal amount of the outstanding debt securities of such series (voting as a class), except in each case a failure to pay principal of or premium, interest or additional amounts, if any, on such debt securities or a default in respect of a covenant or provision which cannot be modified or amended without the consent of each holder affected thereby.

The indenture provides that the applicable trustee may withhold notice to the holders of any default with respect to any series of debt securities (except in payment of principal of or interest or premium on, or sinking fund payment in respect of, the debt securities) if the applicable trustee considers it in the interest of holders to do so.

The indenture contains a provision entitling the applicable trustee to be indemnified by the holders before proceeding to exercise any trust or power under such indenture at the request of such holders. The indenture provides that the holders of a majority in aggregate principal amount of the then outstanding debt securities of any series may direct the time, method and place of conducting any proceedings for any remedy available to the applicable trustee or of exercising any trust or power conferred upon the applicable trustee with respect to the debt securities of such series; *provided, however*, that the applicable trustee may decline to follow any such direction if, among other reasons, the applicable trustee determines in good faith that the actions or proceedings as directed may not lawfully be taken or would be unduly prejudicial to the holders of the debt securities of such series not joining in such direction. The right of a holder to institute a proceeding with respect to the applicable indenture will be subject to certain conditions precedent including, without limitation, that the holders of not less than 25% in aggregate principal amount of the debt securities of such series then outstanding under such indenture make a written request upon the applicable trustee to exercise its powers under such indenture, indemnify the applicable trustee and afford the applicable trustee reasonable opportunity to act, but the holder has an absolute right to receipt of the principal of, premium, if any, and interest when due on the debt securities, to require conversion of debt securities if such indenture provides for convertibility at the option of the holder and to institute suit for the enforcement thereof.

#### **Consolidation, Merger and Sale of Assets**

The indenture provides that the Company may not consolidate with, merge into or sell, convey or lease all or substantially all of its assets to any person unless the successor person is a corporation organized under the laws of the United States and assumes the Company's obligations on the debt securities issued thereunder, and under such indenture, and after giving effect thereto no event of default, and no event that, after notice or lapse of time or both, would become an event of default, shall have occurred and be continuing, and that certain other conditions are met.

#### **Certain Covenants**

*Existence.* Except as permitted under “—Consolidation, Merger and Sale of Assets,” the indenture requires the Company to do or cause to be done all things necessary to preserve and keep in full force and effect its corporate existence, rights (by certificate of incorporation, bylaws and statute) and franchises; *provided, however*, that the Company will not be required to preserve any right or franchise if its board of directors determines that the preservation thereof is no longer desirable in the conduct of its business.

*Calculation of Original Issue Discount.* The Company shall file with the trustee promptly at the end of each calendar year a written notice specifying the amount of original issue discount accrued on outstanding securities at the end of such year and any other specific information as may then be relevant under the Internal Revenue Code of 1986, as amended.

*Additional Covenants.* Any additional covenants of the Company with respect to any series of debt securities will be set forth in the prospectus supplement relating thereto.

#### **Conversion Rights**

The terms and conditions, if any, upon which the debt securities are convertible into common stock or preferred stock will be set forth in the applicable prospectus supplement relating thereto. Such

terms will include the conversion price (or manner of calculation thereof), the conversion period, provisions as to whether conversion will be at the option of the holders or the Company, the events requiring an adjustment of the conversion price and provisions affecting conversion in the event of redemption of such debt securities and any restrictions on conversion.

#### **Redemption; Repurchase at the Option of the Holder; Sinking Fund**

The terms and conditions, if any, upon which (i) the debt securities are redeemable at the option of the Company, (ii) the holder of debt securities may cause the Company to repurchase such debt securities or (iii) the debt securities are subject to any sinking fund will be set forth in the applicable prospectus supplement relating thereto.

#### **Repurchases on the Open Market**

The Company or any affiliate of the Company may at any time or, from time to time, repurchase any debt security in the open market or otherwise. Such debt securities may, at the option of the Company or the relevant affiliate of the Company, be held, resold or surrendered to the trustee for cancellation.

#### **Discharge, Defeasance and Covenant Defeasance**

The indenture provides, with respect to each series of debt securities issued thereunder, that the Company may terminate its obligations under such debt securities of a series and such indenture with respect to debt securities of such series if: (i) all debt securities of such series previously authenticated and delivered, with certain exceptions, have been delivered to the applicable trustee for cancellation and the Company has paid all sums payable by it under the indenture or (ii) (A) the debt securities of such series mature within one year or all of them are to be called for redemption within one year under arrangements satisfactory to the applicable trustee for giving the notice of redemption, (B) the Company irrevocably deposits in trust with the applicable trustee, as trust funds solely for the benefit of the holders of such debt securities, for that purpose, money or U.S. government obligations or a combination thereof sufficient (unless such funds consist solely of money, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the applicable trustee), without consideration of any reinvestment, to pay principal of and interest on the debt securities of such series to maturity or redemption, as the case may be, and to pay all other sums payable by it under such indenture, and (C) the Company delivers to the applicable trustee an officers' certificate and an opinion of counsel, in each case stating that all conditions precedent provided for in such indenture relating to the satisfaction and discharge of such indenture with respect to the debt securities of such series have been complied with. With respect to the foregoing clause (i), only the Company's obligations to compensate and indemnify the applicable trustee under the indenture shall survive. With respect to the foregoing clause (ii) only the Company's obligations to execute and deliver debt securities of such series for authentication, to maintain an office or agency in respect of the debt securities of such series, to have moneys held for payment in trust, to register the transfer or exchange of debt securities of such series, to deliver debt securities of such series for replacement or to be canceled, to compensate and indemnify the applicable trustee and to appoint a successor trustee, and its right to recover excess money held by the applicable trustee shall survive until such debt securities are no longer outstanding. Thereafter, only the Company's obligations to compensate and indemnify the applicable trustee and its right to recover excess money held by the applicable trustee shall survive.

The indenture provides that the Company (i) will be deemed to have paid and will be discharged from any and all obligations in respect of the debt securities issued thereunder of any series, and the provisions of such indenture will, except as noted below, no longer be in effect with respect to the debt securities of such series and (ii) may omit to comply with any term, provision, covenant or condition of

such indenture, and such omission shall be deemed not to be an event of default under clause (d) of the first paragraph of “—Events of Default” with respect to the outstanding debt securities of such series; provided that the following conditions shall have been satisfied: (A) the Company has irrevocably deposited in trust with the applicable trustee as trust funds solely for the benefit of the holders of the debt securities of such series, for payment of the principal of and interest of the debt securities of such series, money or U.S. Government Obligations or a combination thereof sufficient (unless such funds consist solely of money, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the applicable trustee) without consideration of any reinvestment and after payment of all federal, state and local taxes or other charges and assessments in respect thereof payable by the applicable trustee, to pay and discharge the principal of and accrued interest on the outstanding debt securities of such series to maturity or earlier redemption (irrevocably provided for under arrangements satisfactory to the applicable trustee), as the case may be; (B) such deposit will not result in a breach or violation of, or constitute a default under, such indenture or any other material agreement or instrument to which the Company is a party or by which it is bound; (C) no default with respect to such debt securities of such series shall have occurred and be continuing on the date of such deposit; (D) the Company shall have delivered to such trustee an opinion of counsel that (1) the holders of the debt securities of such series will not recognize income, gain or loss for federal income tax purposes as a result of the Company’s exercise of its option under this provision of such indenture and will be subject to federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred, and (2) the holders of the debt securities of such series have a valid security interest in the trust funds subject to no prior liens under the Uniform Commercial Code; and (E) the Company has delivered to the applicable trustee an officers’ certificate and an opinion of counsel, in each case stating that all conditions precedent provided for in such indenture relating to the defeasance contemplated have been complied with. Subsequent to a legal defeasance under clause (i) above, the Company’s obligations to execute and deliver debt securities of such series for authentication, to maintain an office or agency in respect of the debt securities of such series, to have moneys held for payment in trust, to register the transfer or exchange of debt securities of such series, to deliver debt securities of such series for replacement or to be canceled, to compensate and indemnify the applicable trustee and to appoint a successor trustee, and its right to recover excess money held by the applicable trustee shall survive until such debt securities are no longer outstanding. After such debt securities are no longer outstanding, in the case of legal defeasance under clause (i) above, only the Company’s obligations to compensate and indemnify the applicable trustee and its right to recover excess money held by the applicable trustee shall survive.

#### **Applicable Law**

The indenture provides that the debt securities and the indenture will be governed by and construed in accordance with the laws of the State of New York.

#### **About the Trustee**

Unless otherwise specified in the applicable prospectus supplement, Wells Fargo Bank, National Association, is the trustee under the indenture.

## DESCRIPTION OF OTHER SECURITIES

We will set forth in the applicable prospectus supplement a description of any warrants, depositary shares, purchase contracts, guarantees or units that may be offered pursuant to this prospectus.

## PLAN OF DISTRIBUTION

The securities being offered by this prospectus may be sold by us or by a selling securityholder:

- through agents,
- to or through underwriters,
- through broker-dealers (acting as agent or principal),
- directly by us or a selling securityholder to purchasers, through a specific bidding or auction process or otherwise,
- through a combination of any such methods of sale;
- through any other methods described in a prospectus supplement

The distribution of securities may be effected, from time to time, in one or more transactions, including block transactions and transactions on The NASDAQ Global Select Market or any other organized market where the securities may be traded. The securities may be sold at a fixed price or prices, which may be changed, or at market prices prevailing at the time of sale, at prices relating to the prevailing market prices or at negotiated prices. The consideration may be cash or another form negotiated by the parties. Agents, underwriters or broker-dealers may be paid compensation for offering and selling the securities. That compensation may be in the form of discounts, concessions or commissions to be received from us or from the purchasers of the securities. Dealers and agents participating in the distribution of the securities may be deemed to be underwriters, and compensation received by them on resale of the securities may be deemed to be underwriting discounts. If such dealers or agents were deemed to be underwriters, they may be subject to statutory liabilities under the Securities Act.

Agents may, from time to time, solicit offers to purchase the securities. If required, we will name in the applicable prospectus supplement any agent involved in the offer or sale of the securities and set forth any compensation payable to the agent. Unless otherwise indicated in the prospectus supplement, any agent will be acting on a best efforts basis for the period of its appointment. Any agent selling the securities covered by this prospectus may be deemed to be an underwriter, as that term is defined in the Securities Act, of the securities.

If underwriters are used in a sale, securities will be acquired by the underwriters for their own account and may be resold, from time to time, in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale, or under delayed delivery contracts or other contractual commitments. Securities may be offered to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. If an underwriter or underwriters are used in the sale of securities, an underwriting agreement will be executed with the underwriter or underwriters at the time an agreement for the sale is reached. The applicable prospectus supplement will set forth the managing underwriter or underwriters, as well as any other underwriter or underwriters, with respect to a particular underwritten offering of securities, and will set forth the terms of the transactions, including compensation of the underwriters and dealers and the public offering price, if applicable. The prospectus and the applicable prospectus supplement will be used by the underwriters to resell the securities.

If a dealer is used in the sale of the securities, we, a selling securityholder, or an underwriter will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. To the extent required, we will set forth in the prospectus supplement the name of the dealer and the terms of the transactions.

We or a selling securityholder may directly solicit offers to purchase the securities and we or a selling securityholder may make sales of securities directly to institutional investors or others. These persons may be deemed to be underwriters within the meaning of the Securities Act with respect to any resale of the securities. To the extent required, the prospectus supplement will describe the terms of any such sales, including the terms of any bidding or auction process, if used.

Agents, underwriters and dealers may be entitled under agreements which may be entered into with us to indemnification by us against specified liabilities, including liabilities incurred under the Securities Act, or to contribution by us to payments they may be required to make in respect of such liabilities. If required, the applicable prospectus supplement will describe the terms and conditions of such indemnification or contribution. Some of the agents, underwriters or dealers, or their affiliates may be customers of, engage in transactions with or perform services for us or our subsidiaries in the ordinary course of business.

Under the securities laws of some states, the securities offered by this prospectus may be sold in those states only through registered or licensed brokers or dealers.

Any person participating in the distribution of common stock registered under the registration statement that includes this prospectus will be subject to applicable provisions of the Exchange Act, and the applicable SEC rules and regulations, including, among others, Regulation M, which may limit the timing of purchases and sales of our common stock by any such person. Furthermore, Regulation M may restrict the ability of any person engaged in the distribution of our common stock to engage in market-making activities with respect to our common stock. These restrictions may affect the marketability of our common stock and the ability of any person or entity to engage in market-making activities with respect to our common stock.

Certain persons participating in an offering may engage in over-allotment, stabilizing transactions, short-covering transactions and penalty bids in accordance with Regulation M under the Exchange Act that stabilize, maintain or otherwise affect the price of the offered securities. If any such activities will occur, they will be described in the applicable prospectus supplement.

#### **SELLING SECURITYHOLDERS**

Information about selling securityholders, where applicable, will be set forth in a prospectus supplement, in a post-effective amendment, or in filings we make with the SEC under the Exchange Act that are incorporated by reference.

#### **LEGAL MATTERS**

In connection with particular offerings of the securities in the future, and if stated in the applicable prospectus supplements, the validity of those securities will be passed upon for us by Gibson, Dunn & Crutcher LLP, and for any underwriters or agents, by counsel named in the applicable prospectus supplement.
