#### **Information Concerning Investment Risk**

**Noteholders and prospective purchasers of Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risk and that they consider the suitability of the Notes as an investment in the light of their own circumstances and financial condition.**

**In purchasing any Notes, purchasers will be deemed to represent and undertake to the Issuer, Dealer and each of their affiliates that (i) such purchaser understands the risks and potential consequences associated with the purchase of the Notes and (ii) that such purchaser has consulted with its own legal, regulatory, investment, accounting, tax and other advisers to extent it believes is appropriate to assist it in understanding and evaluating the risks involved in, and the consequences of, purchasing the Notes.**

**Potential investors are urged to consult with their legal, regulatory, investment, accounting, tax and other advisors with regard to any proposed or actual investment in the Notes and to review the Offering Circular. Please see the Offering Circular together with this Pricing Supplement for a full detailed**

**description of the Notes and in particular, please review the Risk Factors associated with these Notes. Investing in the Notes entails certain risks including, but not limited to, the following:**

**Adjustments by the Determination Agent:** The terms and conditions of the Notes will allow the Determination Agent to make adjustments or take any other appropriate action if circumstances occur where the Notes or any exchanges are affected by market disruption, adjustment events or circumstances affecting normal activities.

**Credit Risk:** Investors are exposed to the credit risk of the Issuer. The Notes are essentially a loan to the Issuer with a repayment amount that the Issuer promises to pay to you at maturity. There is the risk, however, that the Issuer may not be able to fulfil its promise to you. If any companies in the Morgan Stanley group incur losses with respect to any of their activities, this may have a negative impact on the financial condition of the Issuer. You may lose all or part of your investment if the Issuer is unable to pay the redemption amount and/or goes into liquidation. No assets of the Issuer are segregated and specifically set aside in order to pay the holders of the Notes in the event of liquidation of the Issuer, and the holders of the Notes will rank behind creditors who have priority rights over certain assets of the Issuer.

**Market Risk:** The Notes are denominated, and all payments will be made, in U.S. Dollars. There are risks inherent in investments in notes denominated and payable in U.S. Dollars for investors whose home and/or functional currency is not U.S. Dollars. You should consult your financial, legal and tax advisers as to any specific risks entailed by an investment in notes that are denominated and payable in a currency other than the currency of the country in which you are resident or in which you conduct your business. We refer to such country as your “home country” and to the currency of your home country as your “home currency”.

**Exit Risk:** The secondary market price of the Notes will depend on many factors, including interest rates, FX rates, interest rate volatility, time remaining to maturity and the creditworthiness of the Issuer. Depending on the actual or anticipated level of the reference rate, the market value of the notes may decrease and you may receive substantially less than 100% of the issue price if you sell your notes prior to maturity.

**Liquidity Risk:** The Notes will not be traded on an organised exchange. Any secondary market in the Notes made by the Dealer will be made on a reasonable efforts basis only and subject to market conditions, law, regulation and internal policy. Even whilst there may be a secondary market in the Notes it may not be liquid enough to facilitate a sale by the holder.

**The Notes have early redemption risk.** An Optional Early Redemption, in whole but not in part, will occur on an Optional Early Redemption Date if and only if the output of a risk neutral valuation model on a business day that is at least 5 business days prior to (but no more than 8 business days prior to) such Optional Early Redemption Date, based on the inputs indicated in the Optional Early Redemption feature terms, indicates that redeeming on such date is economically rational for us as compared to not redeeming on such date. In accordance with the risk neutral valuation model determination noted herein, it is more likely that the Issuer will redeem the Notes prior to their stated Maturity Date to the extent that the interest payable on the Notes is greater than the interest that would be payable on other instruments of the Issuer of a comparable maturity, of comparable terms and of a comparable credit rating trading in the market. If the Notes are redeemed prior to their stated Maturity Date, you will receive no further interest payments on the redeemed Notes and may have to re-invest the proceeds in a lower interest rate environment.

**Hedging Risk:** On or prior to and after the Trade Date, the Issuer, through its affiliates or others, will likely hedge its anticipated exposure under the Notes by taking positions in the Underlying, in option contracts on the Underlying or positions in any other available securities or instruments. In addition, the Issuer and its affiliates trade the Underlying as part of their general businesses. Any of these activities could potentially affect the value of the Underlying, and accordingly, could affect the payout to holders on the Notes.

**Potential Conflict of Interest:** The Determination Agent (MSI plc) is an affiliate of the Issuer and the economic interests of the Determination Agent may be adverse to the interests of holders of the Notes. Determinations made by the Determination Agent may affect the amount payable to holders pursuant to the terms of the Notes.

**Accounting Considerations:** Special accounting considerations may apply to certain types of investors. Prospective investors are urged to consult with their own accounting advisors to determine implications of this investment.

**Morgan Stanley Finance LLC is not qualified to give legal, tax or accounting advice to its clients and does not purport to do so in this document. Clients are urged to seek the advice of their own professional advisers about the consequences of the proposals contained herein.**

7. **ROC TAXATION** *The following is a general description of the principal of ROC tax consequences for investors receiving interest in respect of, of disposing of, the Notes and is of a general nature based on the Issuer's understanding of current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice.*

*This general description is based upon the law as in effect on the date hereof and that the Notes will be issued, offered, sold or re-sold, directly or indirectly, to professional institutional investors as defined under Paragraph 2, Article 4 of the Financial Consumer Protection Act of the ROC only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Notes.*

#### *Interest on the Notes*

As the Issuer of the Notes is not a ROC statutory tax withholder, there is no ROC withholding tax on the interest or deemed interest to be paid on the Notes.

ROC corporate holders must include the interest or deemed interest receivable under the Notes as part of their taxable income and pay income tax at a flat rate of 17 per cent. (unless the total taxable income for a fiscal year is under NT\$120,000), as they are subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax (“**AMT**”) is not applicable.

#### *Sale of the Notes*

In general, the sale of corporate bonds or financial bonds is subject to a 0.1 per cent. securities transaction tax (“**STT**”) on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act of the ROC prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Notes will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Notes will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from income tax. Accordingly, ROC corporate holders are not subject to income tax on any capital gains generated from the sale of the Notes. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the Income Tax Act of the ROC, the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders could be carried over 5 years to offset against capital gains of same category of income for the purposes of calculating their AMT.
